WELCOME TO ESSENS

Last year, we introduced for the very first time a decorative cosmetics catalogue, the Must Have Edition by ESSENS Beauty, which was a huge success. Although I am not one of the target groups for this type of cosmetic, I must say that we have been very successful. In conjunction with top makeup artists, we have built a premium collection that competes well with the world's leading brands. I am also pleased to enter the traditional beauty contest Czech Miss ESSENS and the associated transnational impact on prestigious international competitions, which create a broad awareness of our brand.

And what do I value the most at the moment? It is undoubtedly the mutual business relationship with well - known Czech top model Simona Krainová, who really loves our decorative cosmetics and you can now also enjoy several of her exclusive photos in our new catalogue.
